

BUDGET GUIDELINES & DETAILS

EVENT BUDGET

There are two categories of Send Network One Days. Below are details to distinguish between them.

1. A standalone One Day event OR a One Day added to the front or back of an already existing event. The audience must not be limited to only planting couples and extended to our broader network.
 - Budget \$10,000
2. An already existing event that will host a breakout or session around our One Day theme and open to a larger audience.
 - Budget \$5,000

Budget Note: Each individual budget will be monitored closely. It is recommended that your Event Coordinator also monitor and maintain the budget.

HOW DO YOU ACCESS YOUR BUDGET?

There are three ways to access your funds.

1. Use your NAMB issued US Bank card. To expense these items use Cost Center 6006. Each charge will require a Project Code based on which One Day is being charged. (Please see a list of Project Codes below and also in our Teams channel)
2. Submit a Leader Agreement/Payment Request. To do so, please use this [link](#). List Macy Lowery as the "Requester." This will also require that you use **Cost Center 6006** and your event's Project Code. This should only be used to make honorarium payments to speakers or band members. Please remember that NAMB staff are not able to receive payment from Send Network funds.
3. If your One Day is taking place in a location without a card issued to a NAMB staff member, you will be able to request reimbursements. Please use this [link](#). You will be required to provide receipts so please do not submit without these. Macy Lowery will be your contact. NAMB uses a NET30 pay policy.

**USE COST CENTER 6006 AND
YOUR EVENT'S PROJECT CODE.**
